## Axway Software – 3<sup>rd</sup> Quarter 2019: Pipeline growth boosted by the AMPLIFY™ offer

- Q3 revenue of €71.2 million, driven by double-digit Subscription growth
- Significant growth in pipeline around new AMPLIFY™ offers
- Resilient Maintenance activity
- Recognition of Axway's leadership in API management

In Q3 2019, Axway (Euronext: AXW.PA) continued to drive its transformation strategy, aimed at becoming a market leader in hybrid integration platforms by the end of 2020. The Group, with its recently strengthened management team, continued the investment efforts necessary to build durable, strong commercial momentum around its new offers. Against this backdrop, significant pipeline growth was observed on key components of the AMPLIFY™ platform, which are spurring the gradual adoption of a hybrid integration strategy by the Group's customers.

Over the first nine months of 2019, the Group's business mix rapidly shifted towards Subscription offers, which posted organic growth in excess of 16%. During the same period, Axway reported revenue of €209.8 million, up 1.6% overall and down slightly organically (-1.6%).

Alongside these business developments, Axway has just been positioned by Gartner in the Leaders quadrant of the Gartner 2019 Magic Quadrant for Full Life Cycle API Management<sup>1</sup>. The study notably highlights Axway's ability to execute and completeness of vision through its Full Life cycle API Management solutions. This recognition rewards the Group's far-reaching work on its product portfolio over the past 18 months and is a key step towards achieving medium-term strategic objectives.

Patrick Donovan, Chief Executive Officer, declared:

*"In operational terms, the third quarter of 2019 followed on from the first half of the year: we continued our transformation to ensure the Group returns to faster growth from 2020. We now have a portfolio of offers, including API Management solutions, that allow us to be ambitious. The latest market studies prove the relevance of our recent investments. Our vision is gradually being adopted by our customers and we aim to become the leading independent software vendor on the Hybrid Integration and API Management markets. For the time being, this is reflected by significant growth in our AMPLIFY™ pipeline. We must now more quickly convert the numerous opportunities open to us. The successful go-to-market of our offerings is the Group's top priority over the coming year and our current investments should enable us to complete this next step of our roadmap. I'm confident in our ability to push signature growth to support the development of an increasingly recurring revenue stream in the coming quarters."*

\* Revenue at 2019 scope and exchange rates

**License** revenue totaled €11.4 million in Q3 2019 (16% of Group revenue), down 18.1% organically, mainly due to a particularly high comparison basis in Q3 2018 (+17.5%). License revenue should remain under pressure in the coming periods, as an increasing number of Group customers take advantage of subscription-based offers.

The **Subscription** activity grew organically by 14.9% in Q3 2019 thanks to revenue of €13.4 million (19% of Group revenue). Overall, activity growth amounted to 24.6% over the period. For the third consecutive quarter, Subscription revenue posted double-digit organic growth. The annual contract value (ACV) of new subscription contracts signed totaled €3.3 million in Q3 2019, compared to €4.0 million in the year-ago period. As the Group continues its transition to new offering models, this slowdown is mainly explained by the observed lengthening of sales cycles, which now average 6 to 9 months. The gradual adaptation of the Group's customers to the new contractualization methods and the ramp-up of the AMPLIFY™ offers, already reflected by greater business opportunities, allow the Group to envisage a return to growth in new subscription contracts' ACV from Q4 2019.

Given these factors and considering a high comparison basis, the signature metric for Q3 2019 declined 17.5% compared to Q3 2018.

**Maintenance** revenue amounted to €36.9 million (52% of Group revenue) in Q3 2019, representing total growth of 1.8% and an organic decline of 2.2% compared to the previous year.

Axway's recurring revenue flows, which include multi-year Subscription and Maintenance contracts, contributed 71% of the Group's revenue for the quarter, or €50.3 million.

The **Services** activity saw its revenue decrease by 14.0% organically over the quarter to €9.4 million (13% of Group revenue), directly impacted by the decline in License sales and related Services projects.

**Axway Software: Revenue by geographic area**

3 <sup>rd</sup> Quarter 2019 (€m)	Q3 2019	Q3 2018 Restated*	Q3 2018 Reported	Total Growth	Organic Growth
France	18.3	20.6	20.6	-11.4%	-11.4%
Rest of Europe	15.2	14.2	14.9	2.2%	7.0%

\* Revenue at 2019 scope and exchange rates

**France** generated revenue of €18.3 million in Q3 2019 (26% of Group revenue), an organic decline of 11.4%. The very strong growth in Subscription activity did not offset the significant decrease in License activity over the quarter.

**Rest of Europe** posted organic growth of 7.0% over the quarter thanks to revenue of €15.2 million (21% of Group revenue). Despite a range of situations across the different countries, both Subscription and License activities experienced significant growth in the region.

The **Americas** (USA & Latin America) generated revenue of €33.8 million (47% of Group revenue) in Q3 2019, representing an organic decline of 6.2%. This was mainly due to lower Maintenance and Services activities, both under pressure during the quarter.

In the **Asia-Pacific** region, revenue amounted to €3.8 million in the quarter (6% of Group revenue), representing organic growth of 13.9%.

**Financial position at September 30, 2019**

At September 30, 2019, Axway had a solid financial position, with cash of €25.2 million and bank debt of €59.2 million.

**2019 Targets & 2020 Outlook**

For 2019, the Group confirms it anticipates:

- A return to organic business growth, that should continue into 2020 and enable Axway to achieve revenue of around €300 million,
- An operating margin on business activity of between 8% and 10%, representing a low point during the transformation of the business model, before a rebound in profitability expected in 2020.
